Despite the State budget crisis, the Eye Works Optometry still offers full vision and medical benefits, including eye glasses, to all patients on Medi-Cal with CSMP or Partnership Coverage!

Napa, CA; Despite the State budget crisis, the Eye Works Optometry is proud to continue offering full vision and medical benefits, including eye glasses, to all patients on Medi-Cal offered through Partnership and those on County Medical Service Program (CMSP).

The State budget cuts have taken their toll on the Medi-Cal system and have subsequently led to deep cuts in provider reimbursements. Therefore many practitioners have had to alter their office policies and turn away any patients with CMSP or Partnership coverage. In spite of these hardships, the Eye Works Optometry is committed to providing complete care to all patients with CMSP and Partnership.

“The Eye Works Optometry will maintain its current policy of providing complete care to all patients with CMSP and Partnership,” states Dr. Pat Casey, of the Eye Works. “Further more”, continues Dr. Casey, “we have no plans of changing our future policy with regards to CMSP and Partnership, and we hope to keep all of these patients as routine patrons of the Eye Works Optometry.”

“It is vital to have an annual comprehensive vision exam which can track not only the health of your eye but other health issues,” states Dr. Craig Sultan, owner of the Eye Works Optometry. “Extensive research has shown eye diseases like diabetes, hypertension, glaucoma, cataracts and macular degeneration can rob a person of their sight. Early detection and proper diagnosis and treatment are the most effective means to protect against these sight threatening

diseases. Extensive research shows these diseases to be more prevalent in the poor,” continued Dr. Sultan.

At the end of an eye exam at the Eye Works, patient’s are offered a complete review of the findings and conclusions with the assistance of a new 3-D animated software program that explains the patient’s conditions in a very easy to understand manner. Digital photos of the back of each patient’s eyes can be taken and e-mailed to them. “Adults are routinely checked for high blood pressure, cholesterol, diabetes and anemia”, states Dr. Sultan.

Redefining Vision Care.....The Eye Works Optometry’s office is located on the corner of First and Main in the new and developing downtown Napa. The Eye Works is in the business of keeping your eyes seeing and being their best. Through advanced technology, the expertise of Optometrist's **Dr. Patrick Casey and Dr. Craig Sultan**, a comprehensive eye exam at the Eye Work's is a one-of-a-kind experience.

For more information on Medi-Cal, CMSP or Partnership programs, or to set up an eye exam appointment, please call us: 254-2020 or visit our website at www.the-eyeworks.com, 1006 First Street, Napa, CA. 94558.
